

Offer to schools in Zimbabwe

Thank you for your interest in accepting SPURT for school fees and as support for school equipment and payments to the teachers.

We are sure you will not regret it.

Who are WE?

New Chances, a company registered in Switzerland is the presenter of SPURT and the business behind Sound Prosperity and SPURT. SPURT is the money used by Sound Prosperity, a Swiss Organization to make the world a better place through business. SPURT is the Purse. You can put SPURT in and take SPURT out.

What do we offer?

Sound Prosperity offers its members compensation for education since we think that every person has the right to study. If you would work with us, we offer you the following options.

1. You can set up a business plan for things you want to have for your school, like computers and the internet. If approved, we will provide SPURT to your account for your plan. Please understand that SPURT should be part of this business plan, and in this plan is added where SPURT, without any exchange, can be used. Part of it will be exchangeable in Crypto SPURT+. There might be, for example, a company accepting SPURT for laptops or computers.
2. You can request additional payment for your teachers so that they have a better income for the important work that they do. (SPURT JOBS)
3. You can accept SPURT for levies. We would pay each semester or each year, just as is normal with you, the levies for all children who want to attend your school.
4. We would, ONE TIME, pay all debts from parents not able to pay for their children. One time, because parents can, in the future, pay with SPURT. You will be able to exchange these SPURT into Crypto SPURT+, which we hope will be exchangeable soon.
5. We would support if you would want to set up a vegetable garden to teach the children how to grow vegetables, so you can sell some to the parents, payable with SPURT and earn SPURT that way. Or give the children to take home, while learning to take care of something. (We have an educator to teach you how to do this.)
6. We would love one of our teams to sew the school uniforms so that they can be paid for in SPURT too.
7. We strongly encourage all kinds of FUN classes like
https://www.ted.com/talks/gever_tulley_s_tinkering_school_in_action
You can add it to your business plan. You could also allow other teachers, perhaps working extra on this kind of work, to use a part of the school for this purpose after school.

Our Credo is: Children are curious. MOTIVATE that curiosity!

All this will make it easier for parents to send their kids to school. We hope you agree with us on this and work with us!

Hope to hear from you soon

Irene Schoots
